Title	The Commons on Flickr		

The UBC Library's Digitization Centre contributes digitized photographs, illustrations, paintings and other materials to The Commons on Flickr.

The Commons has two main objectives:

1. To *increase access* to publicly-held photography collections, and
2. To provide a way for the general public to *contribute information and knowledge*

All images shared on The Commons are in the public domain, or UBC Library owns the copyright and is willing to make the images available for research, educational and personal use with the request that the Library be credited as their source.

If you are interested in commercial use of our images, please contact us at digitization.centre@ubc.ca

Please see the *UBC Open Collections Withdrawal Policy* (DI-001), if you have information about right holders of which the UBC Library is unaware.
