Photos Included are Projects Completed by Adaptive Specialties' Team

things to consider:

wet rooms

Allows for the whole room to be wet without damaging walls or flooring.

overhead patient lifts

Power lifts affixed to a mobile track on the ceiling. Designed to easily transport patients from room to room.

roll-in showers

No barrier or tripping hazard to walk or roll into your shower.

grab bars

Install near toilets, showers, bath tubs for added stability.

roll under sinks

Allow for easy wheelchair access.

How to get started: Call or email us and we will help you from start to finish
consulting@adaptivespecialties.com

bathrooms

walk-in & clean cut tubs

Eliminate the risk of falling while entering and exiting a tub.

hand held showers

Equipped with a long hose that allows you to reach different areas and aim the water where needed.

folding shower benches

Provides a seating option and folds away for added shower space.

comfort height toilets

Make transferring on and off the toilet easier with a seat height of 17" or 19".

bidets

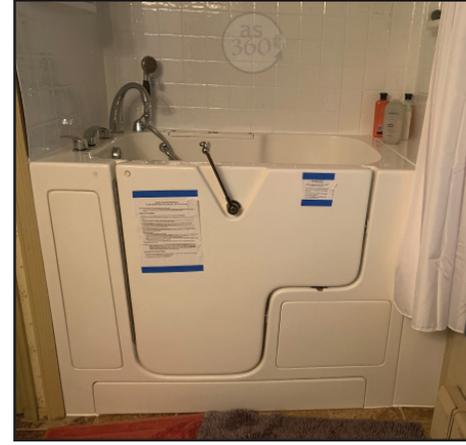

Attaches to your existing toilet and allows for hands free cleaning after using the toilet.

hands-free drying systems

Air dry your whole body with a hands-free drying system mounted to the wall.

elevators

Residential elevators are used to access different levels of your home without the use of stairs.

ceiling lifts

Power lifts affixed to a mobile track on the ceiling. Designed to easily transport patients from room to room.

stair lifts

The chair travels along a fixed track along the curved or straight rail of your staircase.

incline platform lifts (ipl)

Moves along the angle of the stairs to carry a person in a wheelchair up a staircase.

elevator

ceiling lift

incline platform lift

verticle platform lift

changing tables

Stationary or fold down tables are a useful tool for dressing or changing.

mat tables

Provide therapy at home with padded mat tables for stretching and exercises.

swings

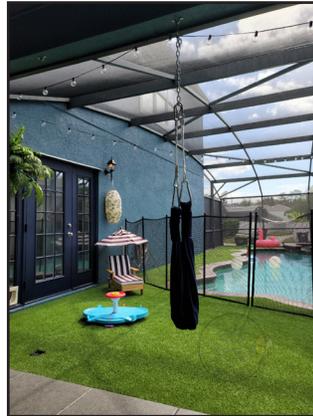

Swings offer fun sensory integration and vestibular therapy, indoors or out.

flooring

Solid floors are easier to clean and provide easier use of wheelchairs and patient lifts.

barn doors

Sliding doors provide easier access in and out of a room, wider doorway openings, and a space-saving design.

outdoor therapy room

ramps

Make access to your home easier with our creative solutions, making entry into the home much safer.

threshold ramps

Simple and safe way to eliminate tripping hazards and barriers in doorways.

vertical platform lifts (vpl)

Elevator-like lifts that transport you vertically between levels without impeding the stairs.

pool lifts

Designed to lower or lift a person in and out of a pool or spa.

wider doorways

Allows for wider medical equipment access throughout the home and allows for quick and easy emergency exits.

vehicle modifications

Vehicles can be modified to allow drivers and passengers the ability to get back on the road!

Modifications Include:

- Raising or Lowering the Wheel
- Push-Button Ignition
- Extending or Adjusting Seat Belts
- Hand Controls For Driving
- Left Foot Accelerator
- Adaptive Electronic Controls
- Wheelchair Lifts And Ramps
- Raised Roof And Dropped Floors
- Transfer Seats
- Reduced Effort Steering and Braking Systems

driver evaluations

We will help facilitate the Driver Evaluation Prescription and schedule the Driver Evaluation to assess the modifications needed.

exterior vehicle lifts

An exterior lift allows retention of all your cargo and seating space in the vehicle. Some lift styles provide easy access to the cargo area with a "Swing-Away" option.

interior vehicle lifts

A fully powered device designed to raise a wheelchair and its occupant in order to safely lift them into the vehicle.

vehicle ramps

Access the vehicle without the use of electronic lifts by adding a vehicle ramp to get your wheelchair or scooter safely into your vehicle.

easy lock systems

Secures your wheelchair in place while the vehicle is in use.

6-way transfer seats

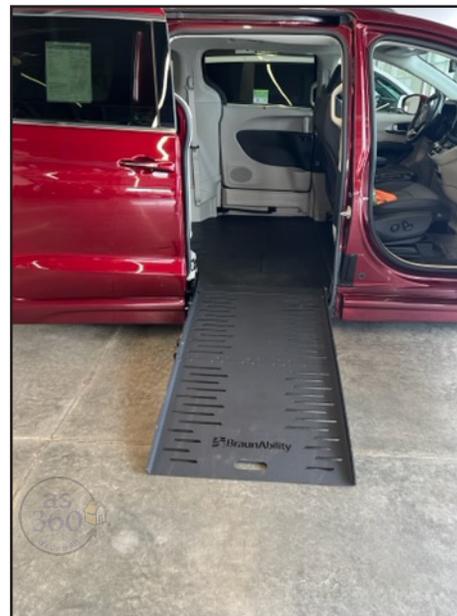

Powered seat that swings out and lifts the user into the vehicle with the push of a button.

We are here to help you find solutions!

"They went above and beyond to help us with our order. No other company has been this helpful in making sure the sling we ordered would work for my disabled daughter. Thank you for truly caring for your customers."

- Steven T - 09/22

"I would recommend your company 10x over!"

- Sherri S - 08/22
