## Protekt Aire 3600 System

by Proactive Medical

Weight Capacity 350 lbs

Available in 80" length x 36" width

\* Raised Perimeter

- Low Air Loss and Alternating Pressure
- Flat and Raised Perimeters available
- Holds air to protect user from bottoming out during power outages
- Non-skid bottom layer keeps mattress from sliding

## PressureGuard CFT

by Span America

Available in Hospital, Twin, Full, Queen & Split King

Weight Capacity 500 lbs

- As position shifts, reservoirs absorb displaced air to accommodate load & equalize pressure
- Proven for both prevention & healing of any stage pressure ulcer
- Generates no noise or heat & uses no electricity

People with limited mobility are often at risk for pressure sores or skin break downs. The most common locations are the tail bone, side of the hips & the heels of the feet. Heat, moisture, friction, pressure & shearing are factors contributing to skin break down. Proper repositioning is a key to pressure ulcer prevention by reducing pressure points, overheating & skin moisture. Frequent position changes, every 2 hours, also allows the caregiver to check for incontinence & prevents excessive skin moisture.

## Sleep Number

Available in Twin, Full, Queen, King & Split King

The Sleep Number bed provides individualized comfort that cushions and contours to your body for pressure relieving comfort, ideal firmness & support.

## Geo-Matt Overlay

by Span America

Weight Capacity 250 lbs

Available in Pediatric, Hospital, Full, Queen & King Size

- Zoned design delivers the ideal support needed at the head, torso, & lower extremities
- Minimizes the effects of pressure & shearing
- Helps channel heat away to minimize perspiration build-up

## Med-Aire Low Air Loss Mattress Overlay

by Drive Medical

Weight Capacity 350 lbs

Available in 80" x 36"

- Alternating pressure & low air loss
- Microclimate controls keep skin dry & cool

- Lightweight & small footprint for easy maneuverability
- Can facilitate lifts from the floor
- Optional Hard Travel Case or Soft Sided Travel Bag available

## Smart 150 Portable Patient Lift

by Molift  
Lifting Capacity 330 lbs

According to the National Institute of Health, nearly 71% of all caregivers who assist with patient transfers suffer from lower back pain. We have all been there. It only takes one instant and you become a statistic. While it is important to choose equipment that fits the person with the disability, it is equally important to find something that fits the caregiver as well.

- Foldable, making it perfect for home care, traveling or storage
- Lightweight & small footprint for easy maneuverability
- Can facilitate lifts from the floor
- Optional Hard Travel Case or Soft Sided Travel Bag available

## Lumex Patient Hydraulic Lift

Weight Capacity up to 250 lbs

- Folding frame has a sleek titanium finish
- Adjustable seat depth allows for plenty of growth
- Seat-to-Back Angle adjusts from 80° to 95°
- Crash tested for transit

"We received the stroller. It is better than we imagined. Our school kids and staff were so excited to get it set up and try it out with our student. We found your company through our community occupational therapist and with some research looking into a better outdoor chair for our student. Our deciding reason was your overall customer support with getting us the best chair for the price."

A.S.
