5	I think competing with other teams is important for students. They can build strong friendships with other students on the same team. I have two questions. What time did the sports festival end? How was the weather on the day of the festival?
6	Yes, I think so. First, people can be efficient during the daytime. By getting up early and exercising, their brains can be active and allow them to focus on their work. Second, they can have a healthy routine. By getting up early to exercise, they can be tired at night and go to bed early.
