ITWG
International Terminology Working Group

October 23-25, 2024
At the Getty Center and via Zoom webinar

Getty

The International Terminology Working Group (ITWG) is convened every few years by the Getty Vocabulary Program (GVP), in the Division of Research and Knowledge Creation at the Getty Research Institute. It serves as a venue to gather the GVP's community, including staff members, contributors, users, vendors, and partners to discuss the evolving status of the Getty Vocabularies and to exchange information about how the Vocabularies are being implemented and used across the international art and cultural heritage sector.
