BUILT WORKS REGISTRY (BWR)

The Avery Architectural & Fine Arts Library at Columbia University and ARTstor were awarded a four-year National Leadership grant by the Institute of Museum and Library Services (IMLS) to support the creation of a Built Works Registry (BWR), a community-generated data resource for architectural works and the built environment (see [press release](#)).

BWR will serve scholars, students, educators, librarians, and catalogers from academic and cultural heritage organizations worldwide, and will be openly accessible to the general public. The project will include the development of the BWR policy framework, metadata structure, technical infrastructure, and a body of seed content. The Avery Architectural & Fine Arts Library at Columbia University and ARTstor will be the principal collaborators for this project, and the Getty Research Institute (GRI), nine other institutions, and an international Advisory Board will also participate throughout the four-year project development cycle. A key feature of BWR will be the collaborative aspect of the resource.

BWR data will be contributed to the Getty Vocabulary Program's Cultural Objects Name Authority (CONA) and will be a critical component to the controlled vocabulary warehouse in Shared Shelf, a cloud-based digital asset management service in development at ARTstor. The BWR's goal is to create the system and tools to enable the gathering and widespread dissemination of a large and growing body of built works information.

Data Privacy

Contact Us

Blog

Welcome!

OpenRefine (previously Google Refine) is a powerful tool for working with messy data: cleaning it; transforming it from one format into another; and extending it with web services and external data.

OpenRefine always keeps your data private on your own computer until YOU want to share or collaborate. Your private data never leaves your computer unless you want it to. (It works by running a small server on your computer and you use your web browser to interact with it)

OpenRefine is available in more than 15 languages.

OpenRefine is part of [Code for Science & Society](#).

Introduction to OpenRefine

1. Explore Data

<input type="checkbox"/>	<input type="checkbox"/>	1. Gogh, Vincer van Choose new match	500115588	Dutch painter and draftsman, 1853-1890	Except for some brief periods of formal instruction, van Gogh was self-taught; he collected prints and reproductions to study and copy, especially those of Millet. His life and work are legendary in the history of art, making him the quintessential misunderstood, tormented, even insane artist, who sold only one work in his lifetime but whose paintings achieved record auction sales prices after his death. Van Gogh was active as an artist for only ten years, during which time he produced around 1000 watercolors, drawings and sketches and nearly 1250 paintings. His styles included an early dark, Realist style and a later colorful, intense, expressionistic style. Almost more than on his oeuvre, his fame has been based on the extensive, diary-like correspondence he maintained, in particular with his brother, Theo. Comment on works: Landscapes, genre, Portraits, still life
<input type="checkbox"/>	<input type="checkbox"/>	2. Gauguin, Emile Choose new match	500601957	French painter, 1899-1980	
<input type="checkbox"/>	<input type="checkbox"/>	3. Varo, Remedios Choose new match	500112426	Spanish painter, 1908-1963, active in Spain	
<input type="checkbox"/>	<input type="checkbox"/>	4. Saar, Betye Choose new match	500110489	American assemblage artist, sculptor, born 1926	African-American sculptor and installation artist from Los Angeles, California. She received a B.A. from UCLA and a M.A. from California State University, Long Beach.
<input type="checkbox"/>	<input type="checkbox"/>	5. Bae, Hyeonggyeong Choose new match	500687716	South Korean sculptor and installation artist, born 1955	
<input type="checkbox"/>	<input type="checkbox"/>	6. Amer, Ghada Choose new match	500114567	Egyptian painter, sculptor, and installation artist, born 1963	Tackling issues of femininity informed by Western and Islamic viewpoints, typical works are canvases covered with meticulously embroidered thread which appear abstract but actually are pornographic images of women; included in the 2000 Whitney Biennial.

Thesaurus Issues and Beyond

Outside consultant analyzes the Getty Vocabularies in Spring 2021

Primary suggestions:

- Vision statement expressing the need for the Vocabularies' true encyclopedism that is pluralist, decolonized, and socially just.
- Proactivity in finding new terms in underrepresented areas of the Vocabularies
- We must mine existing data sets in contemporary publications
- Outreach to scholars and historians that work with underrepresented communities, to further enhance our data.

The Getty Vocabularies:

Thesaurus Issues and Beyond

Unbiased and Inclusive Terminologies – Examining in Relation to Vocabularies and Thesauri as a whole

- What are the primary issues?

- Where do we in the Getty Vocabulary Program stand?

The Getty Vocabularies:

Discover, link, access, retrieve, research, catalog, index

Primary issues:

- Provide structure and practice to facilitate different points of view
- Facilitate use of unbiased terminology
- Facilitate inclusion of terms to express ambiguity or uncertainty, and points of view of various cultures
- Acknowledge cultural traditions
- Sensitivity to “preferred terms” with regard to ethnicity, gender identity and preferences
- Sensitivity to biased historical points of view
- Respect personal privacy with critical ability to research
- Ensure accessibility and inclusivity for the user community

The Getty Vocabularies:

Discover, link, access, retrieve, research, catalog, index

Where do we stand?

- Mandate of multilinguality, inclusivity, and flexibility in data structure
- Do not prescribe how to use terms, instead assist in decision-making
- Contextual information provided via flags and data fields
- Historic and obsolete terms are included for indexing, and may be indicated through flags and dates
- We are not in the position to make weighty decisions
- We allow expert communities as contributors to actuate change in content

Example: “lebetes” vs “dinoi”

 **lebetes** (vessels (containers), <containers by form>, ... Furnishings and E

Note: Refers to ancient Greek small, deep bowls that curve in sharply at the shoulder and have a distinct neck with overhanging lip and round bottom designed so the bowl could sit on a stand; they may have feet. A lebes is equipped with a pair of upright handles at the shoulder and often with a domed cover topped by a tall, stemmed handle. Bronze lebetes were used for cooking and those made of terracotta were used for mixing wine. They are distinguished from "dinoi" by their smaller size. Many scholars in the past have used the term to refer to both the dinos and lebes, because they thought that the term dinos referred to a cup.

Terms:

lebetes ([preferred](#), [C](#), [U](#), [English-P](#), [D](#), [U](#), [PN](#))
([Dutch-P](#), [D](#), [U](#), [U](#))

lebes ([C](#), [U](#), [English](#), [AD](#), [U](#), [SN](#))
([Dutch](#), [AD](#), [U](#), [U](#))
([Spanish-P](#), [D](#), [U](#), [PN](#))

λέβης ([C](#), [U](#), [Greek-P](#), [AD](#), [U](#), [U](#))

碗形金屬盛器 ([C](#), [U](#), [Chinese \(traditional\)](#)-

dinoi (lebetes) ([U](#), [English](#), [UF](#), [U](#), [U](#))

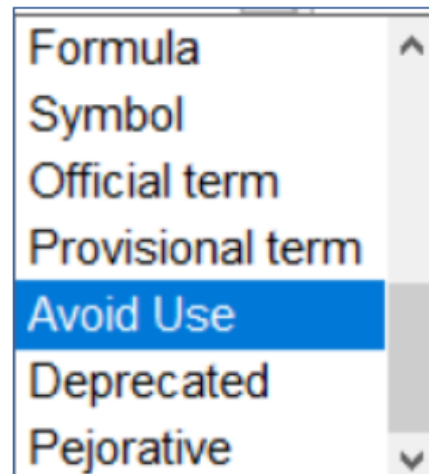

Flag to indicate “Avoid Use”

Note: incorrect usage

Example of terms for rocks that are classified differently by Maori culture

ID: 300379291

Page Link: <http://vocab.getty.edu/page/aat/>

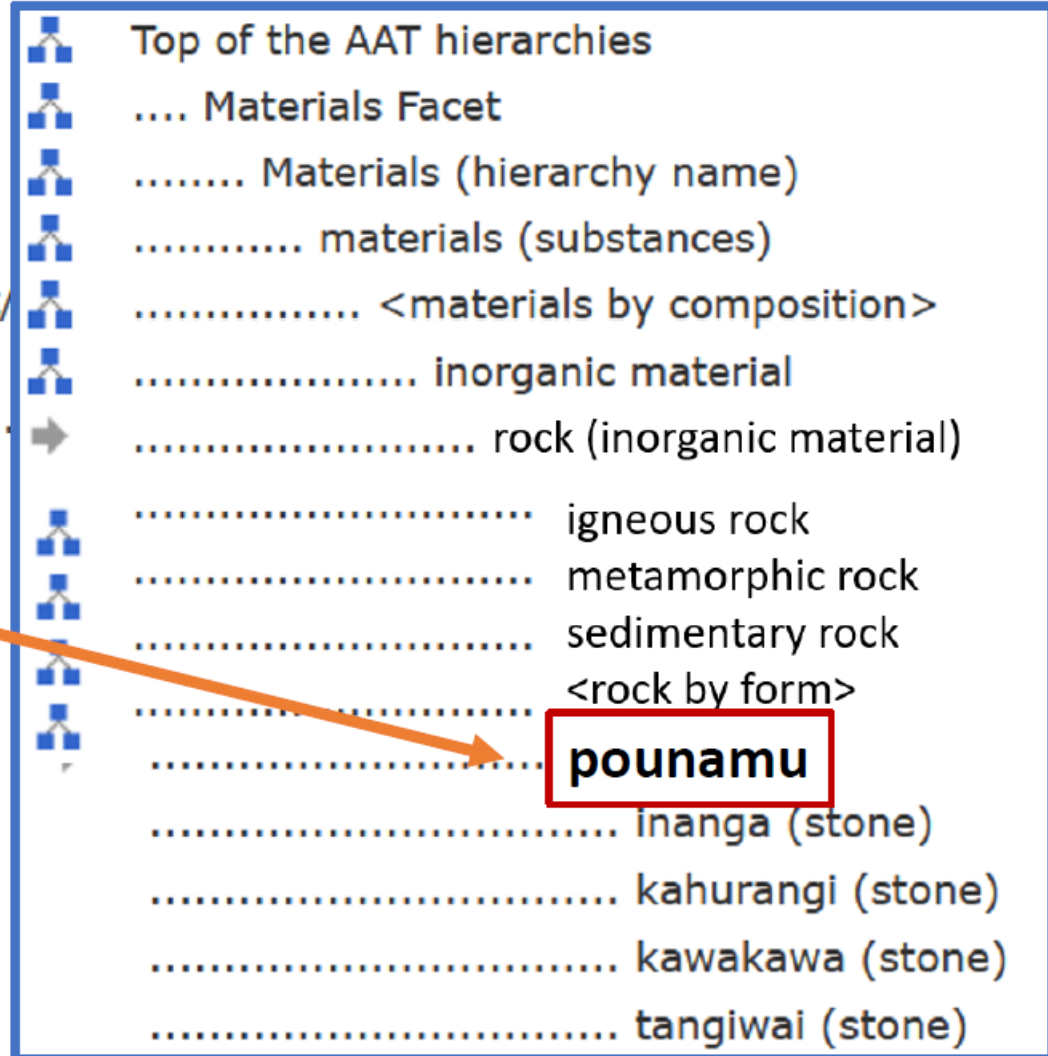

pounamu (rock (inorganic material

Note: General term for greenstone found on South Island, New Zealand. The term refers to any of three different types of stone: nephrite, bowenite, and serpentinite. Maori do not classify pounamu by geological origin, but by appearance according to color, markings, and translucency. There are many local names for different pounamu, but four main varieties are widely recognized: inanga kahurangi kawakawa and

([Maori,UF,U,U](#))

poenamtu ([C,U,English,UF,U,N](#))

 **Ancestral Puebloan** (Pre-Columbian Pueblo styles, Pre-Columbian Southwestern North American styles, ... Styles and Periods (hierarchy name))

Note: Refers to the style and culture of a North American civilization that existed in the "Four Corners" area, where the boundaries of the states of Arizona, New Mexico, Colorado, and Utah intersect. The culture flourished from the first century CE to around 1300 CE, and descendants of this cultural group probably include the modern Pueblo Indians now living in New Mexico and Arizona. The style is noted for fine baskets, pottery, cloth, ornaments, tools, and great architectural achievements, including cliff dwellings and apartment-house-like villages, or pueblos. In some classification schemes, the modern Pueblo cultures are considered later phases of this people, though most schemes end this culture with the abandonment of the cliff dwellings around 1300 CE.

Ancestral Puebloan	(Spanish-P,D,U,A)	preferred by Native Americans, and in most common usage
Ancestral Pueblo (C,U,English,UF,U,U)		
Moki (Ancestral Puebloan) (C,U,English,UF,U,U)

The future?

- Reimagining these goals of inclusivity and multilinguality
- Nurturing new relationships and contributions within our metadata community
- New ideas about how to serve our three audiences
- Additional co-referencing between Vocab records and other resources
- Continuing to have our data remain free and open
