

investigated companies not participating in this review, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company was reviewed; (3) if the exporter is not a firm covered in this review, a previous review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the manufacturer of subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 14.74 percent, the all-others rate established in the LTFV investigation.<sup>9</sup> These deposit requirements, when imposed, shall remain in effect until further notice.

#### Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

#### Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: December 12, 2016.

### National Institute of Standards and Technology

[Docket No. 161116999-6999-02]

#### Announcing Request for Nominations for Public-Key Post-Quantum Cryptographic Algorithms

**AGENCY:** National Institute of Standards and Technology (NIST), Commerce.

**ACTION:** Notice and request for nominations for candidate post-quantum algorithms.

**SUMMARY:** This notice solicits nominations from any interested party for candidate algorithms to be considered for public-key post-quantum standards. The submission requirements and the minimum acceptability requirements of a "complete and proper" candidate algorithm submission, as well as the evaluation criteria that will be used to appraise the candidate algorithms, can be found at <http://www.nist.gov/pqcrypto>.

**DATES:** Proposals must be received by November 30, 2017. Further details are available at <http://www.nist.gov/pqcrypto>.

**ADDRESSES:** Algorithm submission packages should be sent to Dr. Dustin Moody, Information Technology Laboratory, Attention: Post-Quantum Cryptographic Algorithm Submissions, 100 Bureau Drive—Stop 8930, National Institute of Standards and Technology, Gaithersburg, MD 20899-8930. Submissions may also be sent by email to: [pqc-submissions@nist.gov](mailto:pqc-submissions@nist.gov). Note that for email submissions, some of the supporting documentation requires a signature and must be physically mailed to the above address. See <http://www.nist.gov/pqcrypto> for complete submission instructions.

**FOR FURTHER INFORMATION CONTACT:** For general information, send email to [pqc-comments@nist.gov](mailto:pqc-comments@nist.gov). For questions related to a specific submission package, contact Dr. Dustin Moody, National Institute of Standards and Technology, 100 Bureau Drive, Mail Stop 8930, Gaithersburg, MD 20899-8930, email: [dustin.moody@nist.gov](mailto:dustin.moody@nist.gov), or by telephone: (301) 975-8136.

A public email list-serve has been set up for announcements, as well as a forum to discuss the standardization effort being initiated by NIST. For directions on how to subscribe, please visit <http://www.nist.gov/pqcrypto>.

**SUPPLEMENTARY INFORMATION:** The National Institute of Standards and Technology (NIST) has initiated a process to develop and standardize one or more additional public-key cryptographic algorithms to augment FIPS 186-4, Digital Signature Standard, as well as special publications SP 800-56A, Revision 2, Recommendation for Pair-Wise Key Establishment Schemes Using Discrete Logarithm Cryptography, and SP 800-56B, Recommendation for Pair-Wise Key-Establishment Schemes Using Integer Factorization Cryptography. It is intended that the new public-key cryptography standards will specify one or more additional unclassified, publicly disclosed digital signature, public-key encryption, and key-establishment algorithms that are capable of protecting sensitive government information well into the foreseeable future, including after the advent of quantum computers.

As a first step in this process, NIST solicited public comment on draft minimum acceptability requirements, submission requirements, and evaluation criteria for candidate algorithms. The comments received are posted at <http://www.nist.gov/pqcrypto>, along with a summary of the changes made as a result of these comments.

The purpose of this notice is to announce that nominations for post-quantum candidate algorithms may now be submitted, up until the final deadline of November 30, 2017. Complete instructions on how to submit a candidate package, including the minimal acceptability requirements, are posted at <http://www.nist.gov/pqcrypto>. The finalized evaluation criteria which will be used to assess the submissions are also posted at the same Web site.

**Authority:** In accordance with the Information Technology Management Reform Act of 1996 (Pub. L. 104-106) and the Federal Information Security Management Act of 2002 (FISMA) (Pub. L. 107-347), the Secretary of Commerce is authorized to approve FIPS. NIST activities to develop computer security standards to protect

federal sensitive (unclassified) information systems are undertaken pursuant to specific responsibilities assigned to NIST by Section 20 of the National Institute of Standards and Technology Act (15 U.S.C. 278g-3), as amended.

**Kevin Kimball,**

*NIST Chief of Staff.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

RIN 0648-XF065

#### Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Geophysical Surveys in the Gulf of Mexico

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; receipt of revised application for marine mammal incidental take regulations (ITRs); request for comments and information; extension of public comment period.

**SUMMARY:** NMFS has received a revised application for ITRs from the Bureau of Ocean Energy Management (BOEM), on behalf of oil and gas industry operators. The specified activity considered in the application is geophysical survey activity conducted in the Gulf of Mexico (GOM), over the course of five years from the date of issuance. Pursuant to regulations implementing the Marine Mammal Protection Act (MMPA), NMFS is announcing receipt of BOEM's request for the development of regulations governing the incidental taking of marine mammals. NMFS invites the public to provide information, suggestions, and comments on BOEM's application.

The original notice announcing receipt of the revised application (81 FR 88664; December 8, 2016) indicated that comments and information must be received no later than January 9, 2017, which allowed 30 days for public input. We subsequently received a request to extend the comment period by a period of 14 days and have granted that request.

**DATES:** Comments and information must be received no later than January 23, 2017.

**ADDRESSES:** Comments on the application should be addressed to Jolie Harrison, Chief, Permits and Conservation Division, Office of

Protected Resources, National Marine Fisheries Service. Physical comments should be sent to 1315 East-West Highway, Silver Spring, MD 20910 and electronic comments should be sent to [ITP.Laws@noaa.gov](mailto:ITP.Laws@noaa.gov).

**Instructions:** NMFS is not responsible for comments sent by any other method, to any other address or individual, or received after the end of the comment period. Comments received electronically, including all attachments, must not exceed a 25-megabyte file size. Attachments to electronic comments will be accepted in Microsoft Word or Excel or Adobe PDF file formats only. All comments received are a part of the public record and will generally be posted online at [www.nmfs.noaa.gov/pr/permits/incidental/oilgas.htm](http://www.nmfs.noaa.gov/pr/permits/incidental/oilgas.htm) without change. All personal identifying information (e.g., name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

**FOR FURTHER INFORMATION CONTACT:** Ben Laws, Office of Protected Resources, NMFS, (301) 427-8401.

#### SUPPLEMENTARY INFORMATION:

##### Availability

Electronic copies of the application and supporting documents may be obtained online at: [www.nmfs.noaa.gov/pr/permits/incidental/oilgas.htm](http://www.nmfs.noaa.gov/pr/permits/incidental/oilgas.htm). BOEM has separately released a draft Programmatic Environmental Impact Statement (EIS) for public review (September 30, 2016; 81 FR 67380). This draft EIS was prepared in order to evaluate the potential significant effects of multiple geological and geophysical activities on the GOM Outer Continental Shelf (OCS) pursuant to the National Environmental Policy Act. The document is available online at: [www.boem.gov/GOM-G-G-PEIS/](http://www.boem.gov/GOM-G-G-PEIS/).

##### Background

Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs the Secretary of Commerce (Secretary) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) if certain findings are made and regulations are issued.

Incidental taking shall be allowed if NMFS finds that the taking will have a negligible impact on the species or stock(s) affected and will not have an unmitigable adverse impact on the availability of the species or stock(s) for taking for subsistence uses, and if the

permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such taking are set forth.

NMFS has defined "negligible impact" in 50 CFR 216.103 as "an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."

Except with respect to certain activities not pertinent here, the MMPA defines "harassment" as: "any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment)."

The use of sound sources such as those described in the application (e.g., airgun arrays) may result in the disturbance of marine mammals through disruption of behavioral patterns or may cause auditory injury of marine mammals. Therefore, incidental take authorization under the MMPA is warranted.

##### Summary

BOEM was formerly known as the Minerals Management Service (MMS) and, later, the Bureau of Ocean Energy Management, Regulation, and Enforcement (BOEMRE). On December 20, 2002, MMS petitioned NMFS for rulemaking under Section 101(a)(5)(A) of the MMPA to authorize take of sperm whales (*Physeter macrocephalus*) incidental to conducting geophysical surveys during oil and gas exploration activities in the GOM. On March 3, 2003, NMFS published a notice of receipt of MMS's application and requested comments and information from the public (68 FR 9991). This comment period was later extended to April 16, 2003 (68 FR 16263). MMS subsequently submitted a revised petition on September 30, 2004, to include a request for incidental take authorization of additional species of marine mammals. On April 18, 2011, BOEMRE submitted a revision to the petition, which incorporated updated information and analyses. NMFS published a notice of receipt of this revised petition on June 14, 2011 (76 FR 34656). In order to incorporate the best available information, BOEM submitted another revision to the petition on March 28, 2016, which was followed on
