Document type: Conference proceeding (CP)
Conference name: 15th International Conference on E-Education, E-Business, E-Management and E-Learning, IC4E 2024
Conference date: March 18, 2024 - March 21, 2024
Conference location: Fukuoka, Japan
Conference code: 202454
Publisher: Association for Computing Machinery

Abstract: The proceedings contain 67 papers. The topics discussed include: the integration of H5p interactive videos: an empirical examination of effectiveness in enhancing the performance of students in differential equations; the effects of time compression and video subtitling on learners' cognition in online learning; developing statistics learning materials on YouTube media and blogs for improving mathematics problem-solving skills and learning achievement; enhancing TPACK skills through CFR-based microteaching: pre-service teachers' learning experience; exploring the applicability of the revised technology acceptance model in analyzing Hakka teachers' adoption of podcast platforms for teaching; and current status and enhancement strategies for developing computational thinking of high school students in blended learning: take the high school information technology curriculum as an example.
