Yisha Xiang

University of Houston, Department of Industrial Engineering
4222 Martin Luther King Boulevard,Houston, TX 77204-4008
yxiang4@uh.edu (713) 743-4180 https://xiang.ie.uh.edu/

EDUCATION

Ph.D., Industrial Engineering, University of Arkansas, 2009
M.S., Industrial Engineering, University of Arkansas, 2006
B.S., Industrial Engineering, Nanjing University of Aero. & Astro., China, 2003

PROFESSIONAL EXPERIENCE

Associate Professor Sept. 2022-Present
Department of Industrial Engineering
University of Houston, Houston, TX

E. L. Derr Assistant Professor Nov. 2020-Aug. 2022
Department of Industrial, Manufacturing, and Systems Engineering
Texas Tech University, Lubbock, TX

Assistant Professor Sept. 2018-Aug. 2022
Department of Industrial, Manufacturing, and Systems Engineering
Texas Tech University, Lubbock, TX

Assistant Professor Sept. 2015-Aug. 2018
Department of Industrial Engineering
Lamar University, Beaumont, TX

Associate Professor (with tenure) July 2014-Aug. 2015
Department of Management Science and Engineering
Sun Yat-Sen University, Guangzhou, China

Assistant Professor Feb. 2010-June 2014
Department of Management Science and Engineering
Sun Yat-Sen University, Guangzhou, China

Supply Chain Analyst June 2008-Jan. 2010
Global Logistics Department
Halliburton, Houston, TX

AWARDS AND HONORS

- Whitacre Engineering Research Award, Texas Tech University, 2021
- Best Track Paper Award, Quality Control and Reliability Engineering Track, IISE Annual Conference, 2021
- CAREER award, National Science Foundation, 2020
- Featured on today's Research Spotlight on Women Faculty, Texas Tech University, 2020
- Doug Ogden Best Paper Award, Society of Reliability Engineering, Reliability and Maintainability Symposium, 2021, 2019

- Best Track Paper Award, Production and Scheduling Track, IISE Annual Conference, 2017
- Most Helpful Professor voted by the LU IIE Student Chapter, 2017
- Stan Oftshun Best Paper Award, Society of Reliability Engineering, Reliability and Maintainability Symposium, 2013, 2017
- Ralph A. Evans/P. K. McElroy Best Paper Award, Reliability and Maintainability Symposium, 2013
- Outstanding Employee of the Year, Sun Yat-Sen University, China, 2013

RESEARCH INTERESTS

Methodologies: Data-driven decision making under uncertainty, Statistical machine learning
Applications: Manufacturing system control, Energy, Healthcare

PROPOSAL FUNDING

Funded Proposals

1. Y. Xiang (PI), CAREER: Enhancing Environmental and Economic Sustainability of Additive Manufacturing-based Remanufacturing, $508,805, National Science Foundation, September 2020–August 2025.

2. Y. Xiang (co-PI, 12%), Intelligent Visual Analytics for Energy Aware Security of Advanced Manufacturing, $200,000, Clean Energy Manufacturing Innovation Institute: Cybersecurity in Energy Efficient Manufacturing, Department of Energy, January 2021-December 2021, PI: R. Hewett, Co-PIs: A. Serwadda, T. Dang, D. Le, Z. Zhang, L. Chen.

3. Y. Xiang (PI), Data-driven Reliability Analysis and Maintenance Planning for Flow Transmitters, $11,500, Covestro, September 2019–August 2021.

4. Y. Xiang (PI), Collaborative Research: Maintenance Planning for Complex Systems in Dynamic Environments, $279,025 + $8,000 REU, National Science Foundation, September 2017–August 2022.

5. Y. Xiang (PI), Integrated Framework of Degradation-based Reliability Modeling and Adaptive Maintenance Logistics, $5000, Research Enhancement Grant, Lamar University, September 2017–August 2018.

6. Y. Xiang (PI), Reliability and Availability Analysis for Port Equipment, $25,000, Center for Advances in Port Management, Lamar University, January 2016–July 2017, co-PI: V. Zaloom.

PRESENTATIONS

Invited Seminars and Colloquia

1. Xiang, Y. (2021). Data-driven Markov decision processes with parameter uncertainty: Application to remanufacturing planning. Department of Industrial and Systems Engineering, Wayne State University. (Virtual)

2. Xiang, Y. (2021). Data-driven Markov decision processes with parameter uncertainty: Application to remanufacturing planning. Wm Michael Barnes ′64 Department of Industrial and Systems Engineering, Texas A&M University. (Virtual)

3. Xiang, Y. (2019). Maintenance optimization for multi-component systems. Department of Mechanical and Industrial Engineering, University of Electronic Science and Technology of China, Chengdu, China.

4. Xiang, Y. (2017). Exploring complex heterogeneous systems in dynamic environments: Stochastic degradation-based reliability and maintenance decision-making, Schlumberger Reliability and Maintenance Colloquium, Houston, TX.

5. Xiang, Y. (2016). An introduction to preventive maintenance models. Schlumberger Engineering Colloquium, Rosharon, TX.

6. Xiang, Y. (2016). Condition-based maintenance under performance-based contracting. Department of Industrial Engineering. University of Houston, Houston, TX.

7. Xiang, Y. (2014). Reliability modeling and preventive maintenance for mixed Populations. Department of Industrial and System Engineering and Engineering Management, Huntsville, AL.

8. Xiang, Y. (2014). Multi-echelon inventory system simulation and optimization. Department of Information and Logistics Technology, University of Houston, Houston, TX.

9. Xiang, Y. (2013). Joint optimal burn-in and replacement policy for heterogeneous populations. Department of Industrial Engineering, University of Houston, Houston, TX.

10. Xiang, Y. (2012). Condition-based Maintenance of Degrading Systems. Department of Mechanical and Industrial Engineering, Northwestern Polytechnic University, Xi'an, Shanxi, China.

Conference Presentations

1. Liao, Y., Xiang, Y., Zhao, Z., and Ai, D. (2021). Bayesian mixed-effect higher order hidden Markov models with applications to predictive healthcare using electronic health records. International Conference on Intelligent Biology and Medicine (Virtual).

2. Shi, Y., and Xiang, Y. (2021). Joint optimization of resource allocation and imperfect maintenance planning for a multi-facility infrastructure System. IISE Annual Conference (Virtual).

3. Zhu, Z., and Xiang, Y. (2021). Two-stage stochastic programming for maintenance optimization of multi-component systems. IISE Annual Conference (Virtual).

4. Liao, Y., Xiang, Y., and Keedy, E. (2021). Age-based maintenance scheduling for flowmeters with multiple failure modes and covariates. Annual Reliability and Maintainability Symposium, Orlando, FL.

5. Wascom, W., and Xiang, Y. (2021). Time-based preventative maintenance policies for circuit breakers with multiple failure types. Annual Reliability and Maintainability Symposium, Orlando, FL.

6. Zhu, Z., and Xiang, Y. (2020). Optimal Control of Remanufacturing with Parameter Uncertainty. INFORMS Annual Meeting (Virtual).

7. Shi, Y., and Xiang, Y. (2020). Condition-based maintenance for deteriorating systems subject to ambiguity in transition probabilities. INFORMS Annual Meeting (Virtual).

8. Liao, Y., and Xiang, Y. (2020). Predictive maintenance management with prognostics information based on higher order hidden semi-Markov models. INFORMS Annual Meeting (Virtual).

9. Liao, Y., Xiang, Y., and Du, D. (2020). Automatic classification of heartbeats using ECG signals via higher order hidden Markov model. IEEE 16th International Conference on Automation Science and Engineering (Virtual).

10. Liao, Y., Xiang, Y., and Keedy, E. (2020). Reliability analysis of flow meters with multiple failure modes in the process industry. Annual Reliability and Maintainability Symposium, Palm Springs, CA.

11. Bediako, E., Xiang, Y., Alaswad, S., Liao, Y., and Xing, L. (2020). Reliability analysis of crude unit overhead piping based on wall thickness degradation process. Annual Reliability and Maintainability Symposium, Palm Springs, CA.

12. Liao, Y., and Xiang, Y. (2019). Classification of ECG signals via higher order hidden Markov model. INFORMS Annual Meeting, Seattle, WA.

13. Shi, Y., Xiang, Y., and Zhu, W. (2019). Condition-based predictive maintenance optimization for multi-component systems subject to a system reliability requirement. INFORMS Annual Meeting, Seattle, WA.

14. Zhu, Z., and Xiang, Y. (2019). Condition-based maintenance for multi-component systems: Modeling, structural properties, and algorithms. INFORMS Annual Meeting, Seattle, WA.

15. Zhu, Z., Xiang, Y., Cong, W., Zhang, H., and Jin, T. (2019). proactive remanufacturing planning model for enhancing environmental sustainability. International Conference on Quality, Reliability, Risk, Maintenance, and Safety Engineering, Zhangjiajie, China.

16. Liao, Y., Xiang, Y., Beruvides, M., and Heinze, L. (2019). A data-driven prognostic method for cruide-oil pipeline systems. Southwestern Petroleum Short Course Conference, Lubbock, TX.

17. Zhu, Z., Xiang, Y., and Zeng B. (2018). Condition-based maintenance optimization for multi-component systems: A stochastic programming approach. INFORMS Annual Meeting, Phoenix, AZ.

TEACHING EXPERIENCE

Manufacturing Systems Control	Texas Tech	Ugrad	Spring 2021
Stochastic Processes	Texas Tech	Grad	Fall 2019, 20, 21
Decision Making under Uncertainty	Texas Tech	Grad	Spring 2020
Maintenance Modeling and Optimization	Texas Tech	Grad	Spring 2019
Production Inventory and Control	Lamar	Ugrad	Fall 2015, 17
Operations Research	Lamar	Ugrad	Spring 2016, 17
Reliability and Maintenance Operations	Lamar	Ugrad	Fall 2016, 17
Reliability	Lamar	Grad	Fall 2015, 16, 18
Repairable System Modeling	Lamar	Grad	Spring 2016, 17
Production Inventory and Control	Sun Yat-Sen	Ugrad	Spring 2010, Fall 2013
Business Statistics	Sun Yat-Sen	Ugrad	Spring 2013, 14, Fa 2014
Operations Management	Sun Yat-Sen	Ugrad	Spring 2010, 11, 13, 15
Operations Research	Sun Yat-Sen	Grad	Fall 2012, 13, 14

STUDENT ADVISING

Ph.D. Dissertations Supervised

1. Jason Zhu (IE, Texas Tech), Data-driven maintenance and remanufacturing optimization of complex systems, September 2021.

Ph.D. Students in Progress

1. Yvette Shi (IE, Texas Tech), expected Spring 2022.
   Topic: Data-driven sequential decision making with learning under ambiguity.
2. Laticia Liao (IE, Texas Tech), expected Spring 2023.
   Topic: Statistical learning frameworks for future prediction of patients from the electronic health records.
3. Saunak Panda (IE, Texas Tech), in progress.
   Topic: Deep reinforcement learning for dynamic supply-demand matching for manufacturing resources.
4. Ning Dong (IE, Texas Tech), in progress.
5. Tong Li (IE, Texas Tech), in progress.
6. Eric Bediako (Systems and Engineering Management, Texas Tech), in progress.
7. Will Wascom (Systems and Engineering Management, Texas Tech), in progress.

Membership on PhD Committees

1. Sagar Chhetri (Systems and Engineering Management, Texas Tech), March, 2021.
2. Saikath Bhattacharya (Electrical and Computer Engineering, University of Massachusetts, Dartmouth), December 2020.
3. Marko Dodig (Systems and Engineering Management, Texas Tech), April 2020.
4. Monikka M. Mann (Systems and Engineering Management, Texas Tech), in progress.
5. Gohkar Tejas (Systems and Engineering Management, Texas Tech), in progress.
6. Paul Braden (Systems and Engineering Management, Texas Tech), in progress.

Membership on M.S. Committees

1. Nikko Valdez (Interdisciplinary Studies, Texas Tech), November 2020.

Undergraduate Research Advising

1. Morgan Loiseau (B.S., Texas Tech University), REU participant, Summer 2020-Spring 2021.
2. Nadiya Kulibaba (B.S., Lamar University), Spring 2016-Fall 2016.

PROFESSIONAL SERVICE

Editorial Service

- Associate editor, *IISE Transactions*, 2021-present
- Associate editor, *IEEE Transactions on Automation Science and Engineering*, 2020-present

Professional Society Service

- Track chair, Quality Control and Reliability Engineering Track, IISE Annual Conference, 2021, 2022
- Treasurer, INFORMS Women in OR/MS (WORMS) Forum, 2021-present
- New Faculty Colloquium Panelist, INFORMS Annual Meeting, 2020
- Board of directors, IISE Quality Control and Reliability Engineering Division, 2019-present
- Reviewer, National Science Foundation, 2017, 2020, 2021
- Session chair, INFORMS Annual Meeting, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021

- Best Student Paper Award Reviewer, IISE Quality Control and Reliability Engineering Track, 2012, 2017, 2020
- Technical program committee, the 10th Prognostics and Systems Health Management conference, 2019
- Best Student Paper Award Reviewer, INFORMS Quality, Statistics and Reliability Society, 2016
- Reviewer, Natural Science and Engineering Research Council of Canada, 2016
- Reviewer, National Natural Science Foundation of China, 2015, 2016
- Quality and Reliability Technical committee, ASME, 2016
- Program committee, the 11th International Conference on Reliability, Maintainability and Safety, Hangzhou, China, 2016
- Session chair, the Ninth International Conference on Mathematical Methods in Reliability, Tokyo, Japan, 2015
- Session chair, World Conference of Engineering Asset Management, Hong Kong, 2013

Department, College, and University Service

- Founding Faculty Advisor, initiated TTU INFORMS Student Chapter, 2020-present
- Faculty Search Committee, 2020, 2021
- Graduate Recruitment Committee Chair, 2019-2021
- Graduate Recruitment Committee, 2018-2019, 2021-present
- Graduate Program Committee, 2018-2021

Ad Hoc Reviewing Service

Referee for *Applied Mathematical Modelling*, *Communications in Statistics – Theory and Methods*, *Computers & Industrial Engineering*, *Computers & Operations Research*, *European Journal of Operational Research*, *IISE Transactions*, *IEEE Transactions on Automation Science and Engineering*, *IEEE Transactions on Reliability*, *IEEE Transactions on Systems, Man, and Cybernetics*, *International Journal of Inventory Research*, *International Journal of Performability Engineering*, *International Journal of Strategic Engineering Asset Management*, *International Journal of Systems Science*, *Journal of Applied Statistics*, *Journal of Intelligent Manufacturing*, *Journal of Manufacturing Systems*, *Journal of Risk and Reliability*, *Journal of Simulation*, *Naval Research Logistics*, *Production and Operations Management*, *Quality and Reliability Engineering International*, *Reliability Engineering and Safety Science*, *Wiley Encyclopedia of Operations Research and Management Science*.

PROFESSIONAL AFFILIATIONS

Member of IISE, INFORMS, SRE
