802.1Qaz Draft 0.2 Status

Craig W. Carlson;
craig.carlson@qlogic.com

Current Draft

- **New Draft rev 0.2 published**

- **New in this edition**
  - Add more DCBX tables
    - Everything but LLDP interaction and state machines

Issues

- **DCBX**
  - Waiting on TG consensus to fully include
  - For existing text, some issues with references to tables (among other issues) – May best to wait for more complete DCBX before trying to resolve
