To Whom It May Concern,

Company Name: Insource Co., Ltd.
Representative: Takayuki Funahashi
Representative Director, President and
CEO
(Code number: 6200, Prime Market of the
Tokyo Stock Exchange)

Insource Selected by the Ministry of Education, Culture, Sports, Science and Technology as a contractor to implement the "Teacher Training Platform and Training Attendance Recording System Project" in 2023
- Based on Leaf, an educational platform for 900,000 teachers throughout Japan will be established

Insource Co., Ltd., (hereafter referred to the Company), a company that helps organizations solve problems through the power of education and IT, is pleased to announce that the Company has been selected as a contractor for the "Project for Establishment of Teacher Training Platform and Training Attendance Recording System (hereinafter referred to as the "Project")" to be implemented at the Ministry of Education, Culture, Sports, Science and Technology of Japan.

This project is to build a platform to create a new type of teacher learning that represents "Japanese-style school education in the current *Reiwa* Era" and will be used by approximately 900,000 teachers at elementary, junior high, and senior high schools throughout Japan.

The Company was selected as a contractor this time because of its achievements in developing and stably providing "Leaf," Japan's largest LMS (Learning Management System) with 2.5 million* users, and its unique video lightening function that converts video materials into HTML-format video and reduces the line and server load to less than one-third were highly evaluated. The Company will contribute to school education in Japan by making the most of our accumulated expertise in helping organizations solve their problems through the power of "education" and "IT."

*As of the end of February, 2023

<The Project Details>

Name	Project for Establishment of Teacher Training Platform and Training Attendance Recording System
Overview	The Company will build a platform to create a new type of teacher learning that represents "Japanese-style school education in the current <i>Reiwa</i> Era" and will be used by approximately 900,000 teachers at elementary, junior high, and senior high schools throughout Japan. The following processes will be included; ▪ Requirement definition, Design ▪ Development ▪ Environment building ▪ Testing ▪ Transition
Schedule	April 1, 2023 – March 31, 2024

◆ What LMS "Leaf" (education management system) is

An LMS developed by the Company to support productivity improvement. It helps not only training and career support such as training management, administration, and e-Learning, but also has streamlined personnel-related tasks such as personnel evaluations and stress check operations, and saved labor using IT.

We will continue to support human resources personnel with the power of IT to make their work more efficient and labor-saving, and will make every effort to expand and improve our services.

END
