CISQ

Consortium for Information & Software Quality ™

CISQ provides open-source, freely available standards that measure software risk.

The Consortium for Information & Software Quality™ (CISQ™) was co-founded by OMG and the Software Engineering Institute at Carnegie Mellon University. The organization collaborates with the world's top software engineering experts to create standards for automating the measurement of software size and structural quality from the source code. CISQ standards enable organizations developing or acquiring software-intensive systems to measure the operational risk software poses to the business and estimate the cost of ownership.

CISQ's goals are to:

• Develop standards that automate software quality measurement

• Promote and sustain secure, reliable, and trustworthy software

• Share insight to software standards development

• Create cross-industry software quality weaknesses and definitions

• Educate, evolve, and refine software standard deployment and adoption

ISO 5055

Measures the internal, structural quality of software

AUTOMATED FUNCTION POINTS

Estimates the size of a software application or component

TECHNICAL DEBT

Estimates the effort to correct software weaknesses

Want to know where software modernization and security are headed?

JOIN THE EXPERTS AND HELP DRIVE THE ADOPTION OF INTERNATIONAL SOFTWARE STANDARDS!

Your sponsorship will fund the work that CISQ undertakes – giving your organization a direct leadership position to drive standards requirements, policy recommendations, software certification, and activities to raise awareness of your organization's support and commitment to software quality.

Sponsors of CISQ participate in the development of standards. Sponsorship of CISQ signals a commitment to the development of software and software-intensive systems that are secure, resilient, and trustworthy.

SPONSORSHIP BENEFITS	LARGE INDUSTRY MEMBER (>$50M ANNUAL REVENUE)	SMALL INDUSTRY MEMBER (<$50M ANNUAL REVENUE)	NON-FOR-PROFIT, GOVERNMENT, ACADEMIC MEMBER
Join working groups & participate in standards development and projects	Yes	Yes	Yes
Seat on the CISQ Governing Board for an organization Executive	Yes	Yes	Yes
Sponsor logo on CISQ website, presentations, newsletters, and event signage	Yes	Yes	Yes
Sponsor of all CISQ Events: Company logo on event website, email invitations, signage, and program	Yes	Yes	Yes
Speaking Opportunities at CISQ Events, Summits, Webinars, Etc.	Yes	Yes	Yes
Complimentary Passes to Paid CISQ Events	5 passes per event	3 passes per event	1 pass per event
Exhibit Table at CISQ Events	Yes	Yes	Yes
Hosting of Sponsored CISQ Webcast/Webinar through OMG BrightTalk Channel	Up to 3 webcasts per year	2 webcasts per year	1 webcast per year
Press Release Announcement of Sponorship	Yes	Yes	Yes
Email promotion such as report, blog, technical report	2x/year	1x/year	1x/year
Annual Sponsorship:	**$25,000**	**$10,000**	**$5,000**
