2. School of Science & Technology, Hellenic Open University, 263 35 Patra, Greece

Prof. Dr. Alessandro Pagano
Department of Economics, University of Bari, 70121 Bari, Italy

Deadline for manuscript submissions:
31 May 2025

Message from the Guest Editors

Dear Colleagues,

This Special Issue, titled "Data-Driven Mobile Networks and Education", aims to explore the dynamic interplay between mobile network technologies and educational frameworks.

We are particularly interested in research that examines the impact of mobile networks on e-learning platforms, the use of big data in personalized learning experiences, and the challenges of implementing these technologies in higher-education settings. Contributions may include, but are not limited to, studies on adaptive learning systems, mobile learning applications, data privacy and security in educational contexts, and the scalability of network infrastructures in education. This issue will provide a platform for discussing innovative approaches, practical challenges, and future directions in integrating data-driven mobile networks into the educational technology landscape.

Prof. Dr. Agostino Marengo
Prof. Dr. Panos Fitsilis
Prof. Dr. Alessandro Pagano

da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
