

Table of Contents

Preface

Chapter 1: Materials for Biomedical Applications

Characterization of PVA/Chitosan and Tuna Fish Bones CHA Scaffold for Bone Tissue Engineering S.H. Pratiwi, M. Sari and Y. Yusuf	3
The Effect of Power Rate Microwave Heating on Limestone Carbonated Hydroxyapatite Scaffold Using Gas Foaming Method D.A. Widyastuti and Y. Yusuf	11
Setting Properties along Bone Cement Preparation and its Effect on Material Properties S. Sumarno, P.N. Trisanti, B. Airlangga, N.W. Kurniasari, R.A. Hidayat, A.C. Nisa, K.D. Hernugrahanto and M. Ferdiansyah	19
Polyethylene Glycol as Surface Modification of Magnetite Nanoparticle Coated Silica a Potentially Hyperthermia Therapy Material H. Purwaningsih, L.R.L. Pakpahan, V.M. Pratiwi, R. Fajarin, H. Nurdiansah and D. Susanti	25
The Acrylic Compensation Filter Design Enhances the X-Ray Image of the Ossa Manus in Posteroanterior Projection M. Effendi, S. Maryanah, A. Sholeh and W. Fatchurohmah	35
Tensile, Flexural and Hardness Properties of Guava Leaves (<i>Psidium guajava</i>) Extract Modified Coconut (<i>Cocos nucifera</i>) Shell Powder-Polymethyl Methacrylate Base Denture Composites C.S. Obiekwe, K.N. Okeke, S.C. Uzoechi and A.T. Oladimeji	41

Chapter 2: Biofuel

Sinergy of Biodiesel and its Natural Antioxidant from Rice Bran Feedstock G. Prihandini, D. Analyses, T. Paramita and R.P. Sihombing	55
Influence of Physical and Chemical Activation of Coconut Shell Applied to Reduce Free Fatty Acids of Used Cooking Oil in Biodiesel Plant F.A. Prasetya, M.B. Areta, E. Arjani, J. Prasetyo and Y. Kurniati	65

Chapter 3: Food Chemistry

The Effect of Molar Ratio and Precipitation Time of Mg/Al Hydrotalcite Synthesis on the Isomerization of Glucose into Fructose A.R. Permanasari, F. Yulistiani, R.P. Sihombing, A. Fauzan, K. Keryanti and W. Wibisono	75
The Synthesis of Fe-Zeolite Catalyst by Impregnation Process and its Catalytic Performance in Glucose Isomerization A.R. Permanasari, R.P. Sihombing, F. Yulistiani, T. Paramita, A.F. Tsamarah, E. Meydillahaq and W. Wibisono	85
Response Surface Methodology: An Optimization of Process Variables for the Nanoencapsulation of Anthocyanins from Black Rice Bran R.M. Bulatao, P.J.G. Eugenio, J.P.A. Samin, J.R. Salazar and J.J. Monserate	95

Chapter 4: Materials Synthesis and Chemical Production

Exploring the Potential of α-MnO₂/ Carbon Nanotubes for Improved Oxygen Reduction Reaction Performance at the Cathode of Alkaline Fuel Cells A. Ullah, B. Hussain, M.R. Khan, K. Alam, M. Humayun and M. Arif	111
SnO-SnO₂ Nanocomposites Based pn Diode: <i>In Situ</i> Synthesis, Characterization and Fabrication of Device for pn Diode Applicability R. Narzary, T. Chekke, S. Ngadong, B. Satpati, S. Bayan and U. Das	123

Solid Propellant Aging Detection Method Based on Impedance Spectroscopy B.B. Zhang, G.H. Wu, C.B. Chen and S. Gao	133
---	-----

Chapter 5: Structural Metals Processing

Mechanical and Microstructural Characterization of Diffusion-Bonded Copper-Nickel Joint Interface S. Khan, Z. Ali, K. Rehman and M. Junaid	147
Effect of Flame Remelting on the Microstructure, Wear and Corrosion Resistance of HVOF Sprayed NiCrBSi Coatings C.W. Liu, E.W. Qin, G.X. Chen, S.C. Wei, Y. Zou, L. Ye and S.H. Wu	157

Chapter 6: Building Materials

Evaluation of the Mechanical Performance of Concrete Reinforced with PET Fibers: A Sustainable Approach D.F. dos Santos and A.C. Moraes Martuchelli	171
Cementitious Coatings for Concrete Surfaces: Effects of Curing Conditions on Performance Measure K.G. Chitte, J.S. Narkhede, R.G. Puri, T. Deshpande, M. Bari and U. Patil	187
Influence of Cow Bone Powder on Selected Engineering Properties of Lime-Stabilized Soil F.O. Ayodele, T. Ajijola, O. Usman and J.S. Adekanmi	201
