

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Front Cover:

Optic chiasmatic potential by endoscopically implanted skull base microinvasive biosensor: a brain-machine interface approach for anterior visual pathway assessment

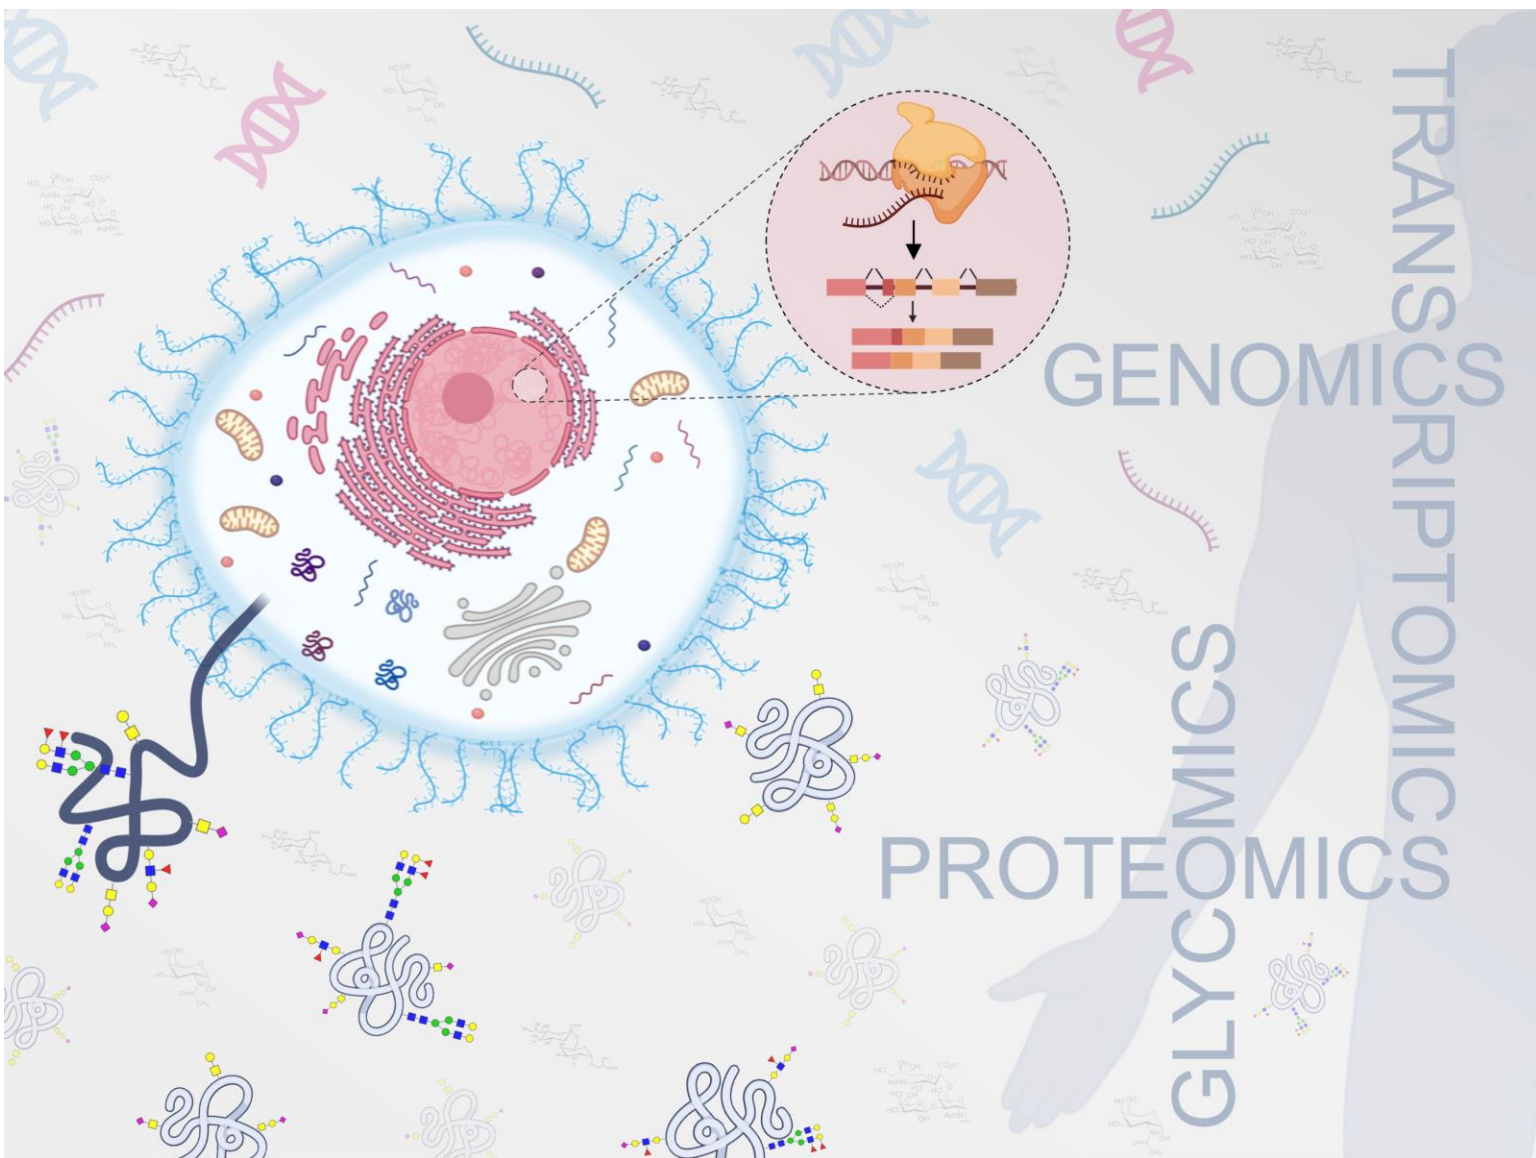

Y. Zhang et al. pp.3273

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Front Cover:

Glycoproteogenomics characterizes the CD44 splicing code associated with bladder cancer invasion

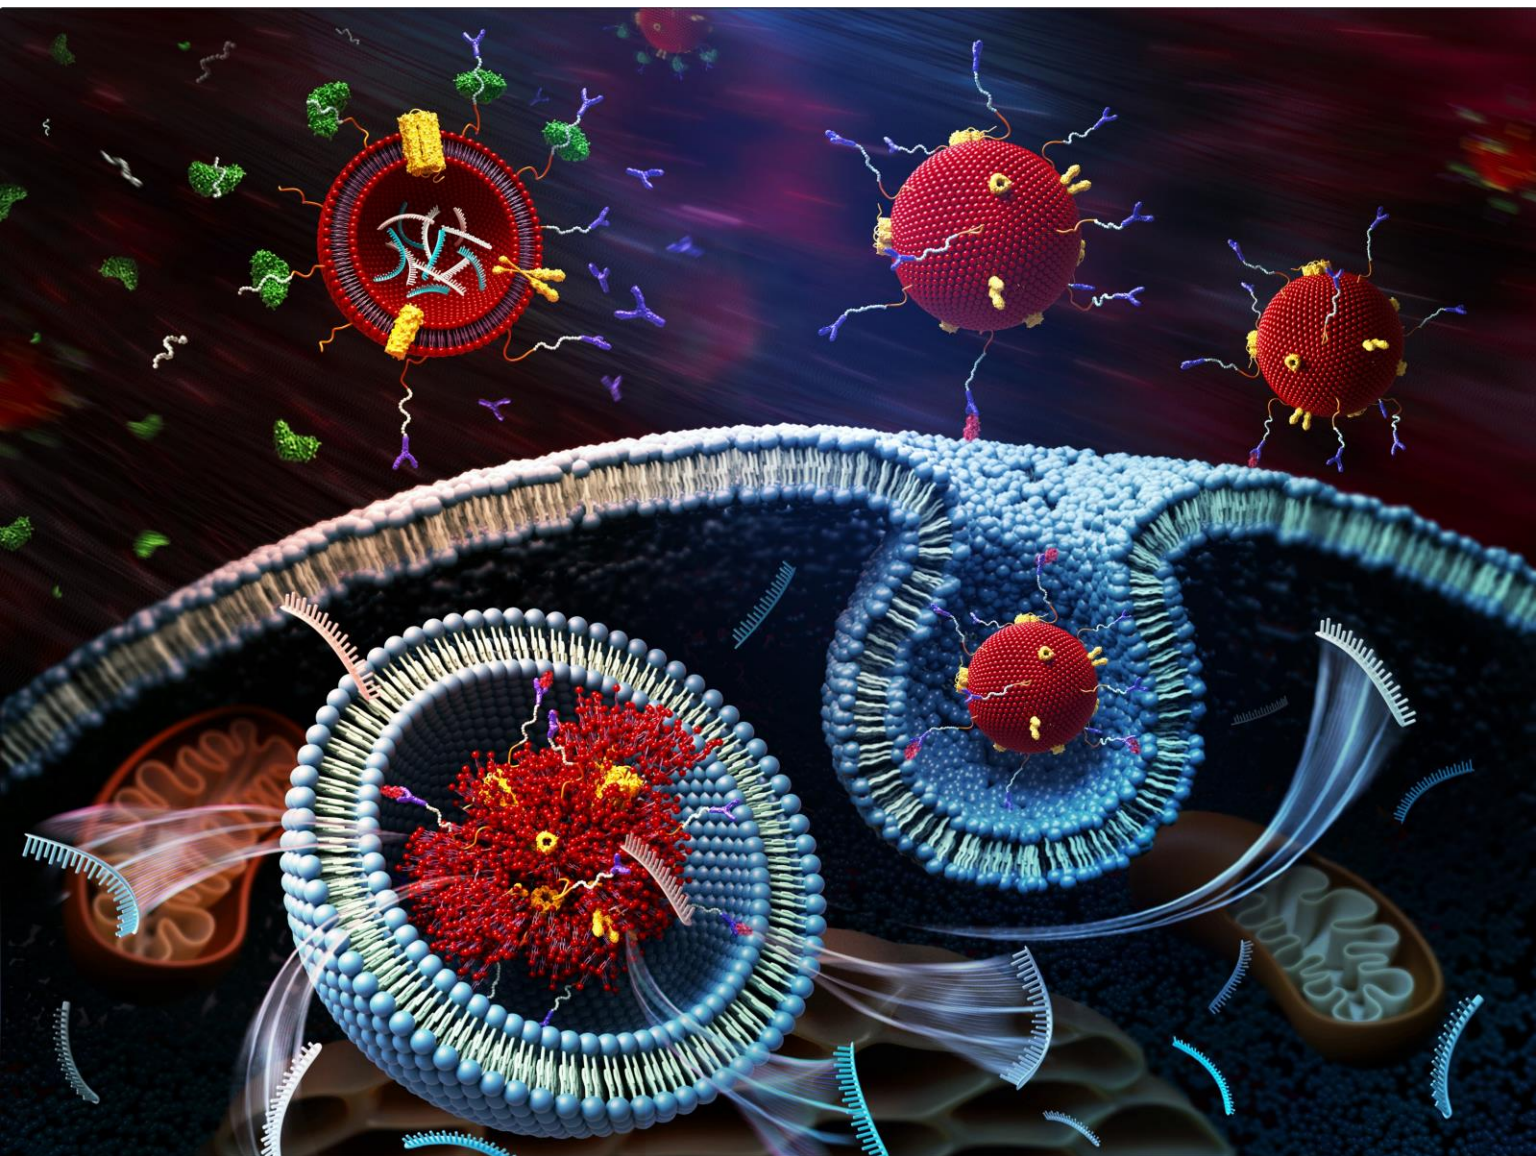

C. Gaitero et al. pp.3150

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Back Cover:

Surface-engineered extracellular vesicles for targeted delivery of therapeutic RNAs and peptides for cancer therapy

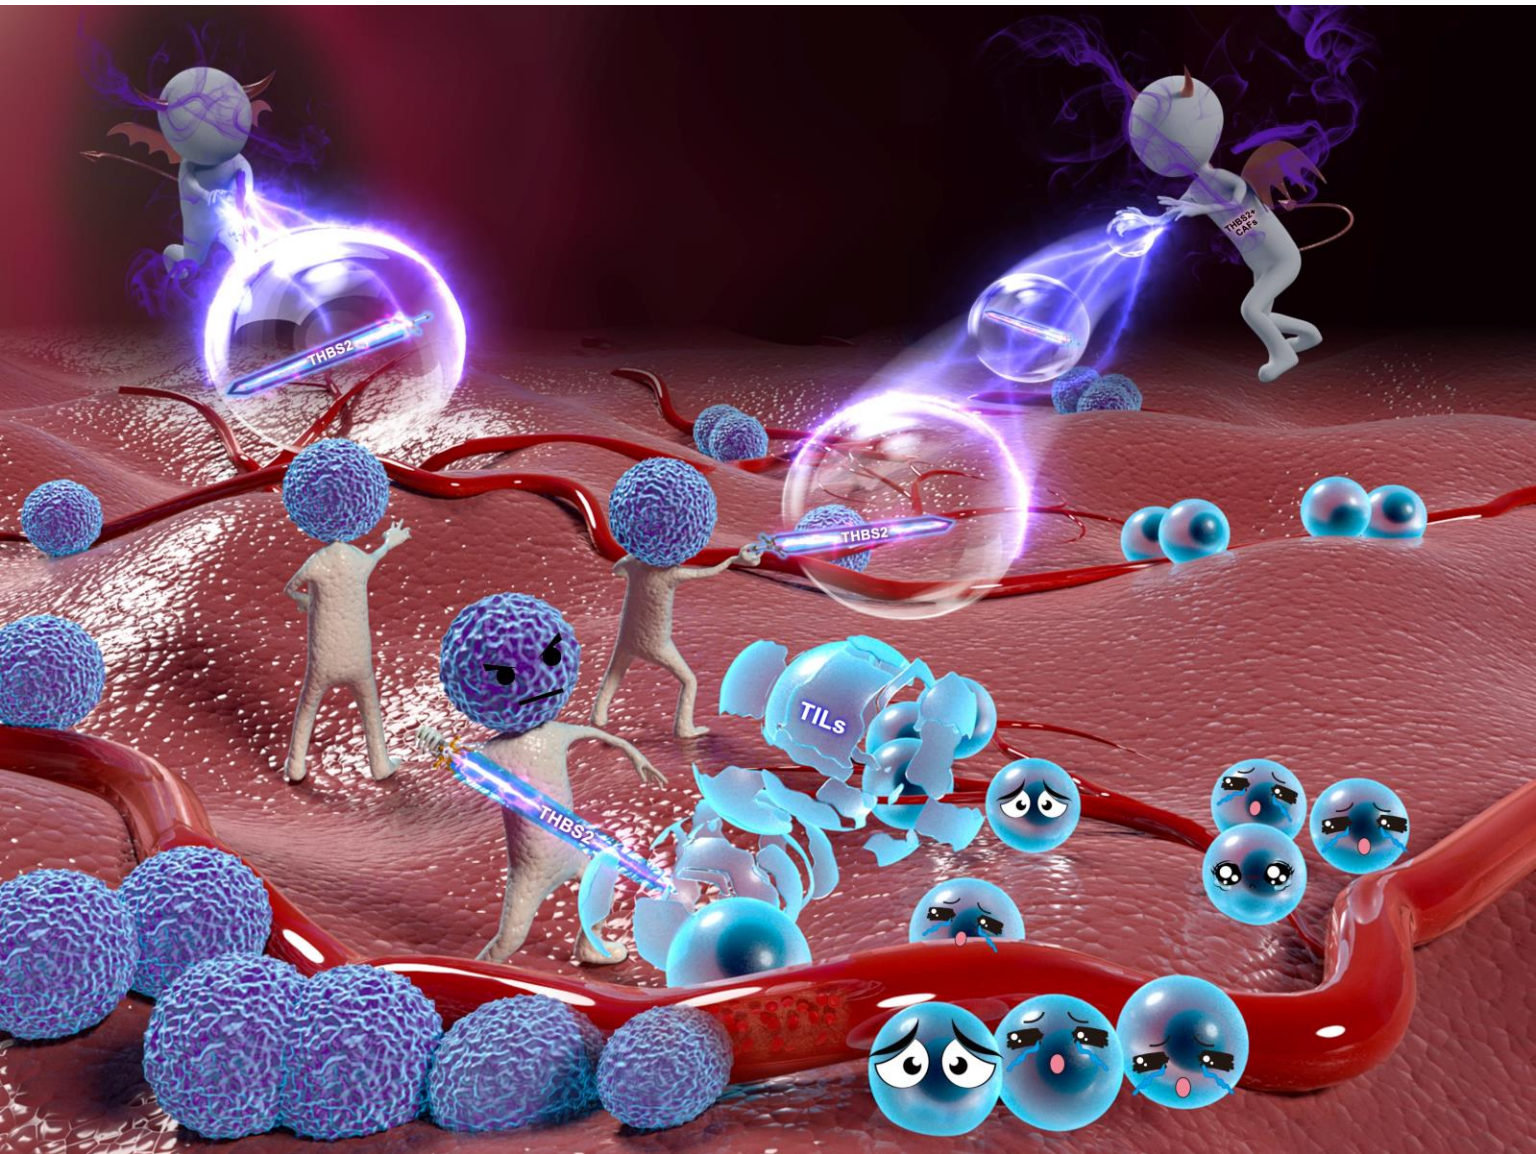

M.K. Jayasinghe et al. pp.3288

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Back Cover:

Multi-scale integrative analyses identify THBS2+ cancer-associated fibroblasts as a key orchestrator promoting aggressiveness in early-stage lung adenocarcinoma

H. Yang et al. pp.3104
