Charts and graphs summary:

Undergraduate programs - This section displays charts and graphs that summarize GPA and credit load information. The charts and graphs can display core, major, elective GPA, credits completed data, etc. Clicking on a section of the graph will display a chart with specific completed requirement GPA, and credit information. Please note that the CU GPA includes courses completed at any CU campus (Boulder, Colorado Springs, The Anschutz Medical Campus and/or Denver). It does not include GPA information from other transfer colleges.

Graduate programs - GPA bar is the program GPA and not CU cumulative.

SP19 CHEM2061	0.0	W	General Chemistry II
SP19 CHEM2068	0.0	W	General Chemistry Lab II

Clicking on a course code will pull up a course description

Academic requirements and sub-requirements:

The degree audit contains lists of requirements and various requirements are made up of sub-requirements. Expanding the caret symbol will show all requirement details.

Per the legend at the bottom of the page, the red "X" indicates the requirement or one of its sub-requirements has not been fulfilled. The blue dots indicate that the requirement and its sub-requirements are completed using in-progress courses. A green check mark indicates the requirement and its sub-requirements are completed. A purple calendar indicates if courses have been planned from the Planner tool.

Electives:

For undergraduates - any course that does not meet core, graduation, major or minor requirements

Work not applied:

This section will list course work that does not complete a specific program requirement. Contact an advisor if a course that meets a program requirement appears in this section.

Repeated Courses:

Though students may take any course more than once, course credit toward graduation is typically counted only once for a given course, unless otherwise noted in the course description. Non-applicable repeat credit will be removed from the total hour count in the degree audit report and appear here as >R per the legend.
