

A LOOK AT

AURIC

Aurangabad
Industrial
City

The AURIC is a smart industrial city project developed at an area of 10,000 acres at Shendra & Bidkin in Maharashtra.

This is been developed under Delhi-Mumbai Industrial Corridor project.

The AURIC promises to provide high-value sustainable infrastructure, along with environment-friendly processes, to support India's long-term economic growth aspiration. It shall provide investment opportunities in the form of office spaces, residences, hotels, parks, entertainment hubs, etc.

The development of the AURIC is jointly managed by Maharashtra Industrial Development Corporation (MIDC) & Delhi-Mumbai Industrial Corridor Development Corporation (DMICDC) through their special purpose vehicle - Aurangabad Industrial Township Limited (AITL).

About Us

- Concrete Show India is premium expo dedicated to the Construction and Infrastructure sector.
